SUMMARY

Junior full stack web developer working with JavaScript, TypeScript, React, Next.js, Node.js and Supabase (PostgreSQL). Built and deployed a responsive Next.js portfolio on Vercel in 5 days, and currently building TaskFloe AI, a full-stack task manager. Uses AI-assisted development (Claude Code) to plan and ship features quickly. DIT graduate, open to internships and junior roles, on-site or remote.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React, Next.js (App Router), Tailwind CSS, responsive design

Backend & Data: Node.js, Supabase (PostgreSQL), API integration

Tools: Git, GitHub, Vercel, VS Code, Claude Code

Familiar with: Python, MySQL

PROJECTS

Developer Portfolio Website Live

Next.js, *React*, *TypeScript*, *Tailwind CSS*, *Motion*, *Vercel*, *Claude Code*

abdullah-portfolio-puce-rho.vercel.app | github.com/abdullahmuneerabbasi0-stack/abdullah-portfolio

- Built and deployed a responsive portfolio on Vercel in 5 days (first working version in 1 day), with 7 page sections built from 15 reusable React components.
- Generated project case-study pages at /projects/[slug] from a single typed TypeScript content file using the Next.js App Router, so adding a project needs no new layout code.
- Improved search and social sharing by adding an auto-generated sitemap, robots.txt, a dynamic Open Graph preview image and JSON-LD structured data.

TaskFloe AI | AI-Powered Task Management App In Development

HTML, *CSS*, *JavaScript*, *Node.js*, *Supabase*

- Developing a full-stack web app for organizing daily tasks, with a responsive HTML, CSS and JavaScript interface and a Node.js back end.
- Integrating Supabase (PostgreSQL) for data storage; user authentication, core task management features and AI integration are in progress.

Premium AI Website Studio | Multi-Tenant AI SaaS Concept Planning Stage

Next.js, *TypeScript*, *PostgreSQL*

- Designed the architecture and feature plan for a multi-tenant SaaS that turns client requirements into AI-generated websites, and published the full case study on the portfolio site.

EDUCATION

Diploma in Information Technology (DIT) Completed

Secondary School Certificate (SSC / Matric) Completed

LANGUAGES

Urdu (native) · English (basic working proficiency)
